(text modified on 1.10.13)

§ 2 Age categories and participation

4.1.002 Participation in races is organised on the basis of the age categories set out in articles 1.1.034 to 1.1.037, except as specified below.

Women under 23

4.1.003 In cross-country Olympic mountain biking, women aged from 19 to 22 are grouped in an "under 23" category.

Cross-country Olympic – XCO

4.1.004 Except in the UCI world championships, continental championships and, at the discretion of national federations, national championships, under 23 men and women can ride the events for elite men and women respectively, even if a separate event is being run for under 23 riders.

Separate under 23 XCO world cup events are organised for men and women. The first 10 men under 23 and the first 5 women under 23 of the last UCI XCO individual ranking of the preceding year can decide whether they want to race the entire world cup season as elite or under 23. All other under 23 riders must race the world cup season in the under 23 category.

Separate under 23 XCO Hors Class and class 1 events may be organized for men and women, in this case separate results must be submitted for both categories. During Class 2 and Class 3 XCO events under 23, men and women, will compete with the elite categories. As such no separate results must be submitted for the under 23 categories at Class 2 and Class 3 XCO events.
(text modified on 1.10.13)

Cross-country Marathon – XCM

4.1.005 Cross-country marathon events are open to all riders aged 19 or over and include masters categories. No separate results must be submitted for under 23 or masters categories.

Cross-country Eliminator - XCE

Cross-country Eliminator events are open to all riders aged 17 or over. No separate results must be submitted for the junior, under 23 or elite categories.

Cross-country short circuit – XCC

Cross-country short circuit events are open to all riders aged 17 or over. No separate results must be submitted for the junior, under 23 or elite categories.

Downhill – DH

4.1.006 Except for the world championships, downhill events are open to all riders aged 17 or over.

At the world championships, separate junior events are organized for men and women juniors (aged 17 and 18). At the world cup events, a separate junior event is organized for men.

For all other races on the international calendar, the UCI points are awarded in relation to the rider's time and not to their category. To ensure that this rule is correctly applied, only one combined result needs to be sent to the UCI.

Comment: When a junior downhill rider would score the best time at the national championships, (s)he must wear the elite jersey. The junior jersey is not awarded in this case.

(text modified on 1.07.12; 1.10.13; 4.04.14)

Four Cross – 4X

4.1.007 4X events are open to all riders aged 17 or over. No separate results must be submitted for the junior, under 23 or elite categories.

Enduro - END

4.1.007 bis Enduro events are open to all riders aged 17 or over. No separate results will be established for the junior, under 23 or elite categories.
(article introduced on 1.10.13)

Stage races - XCS

4.1.008 Stage races are open to all riders aged 19 or over. No separate results must be submitted for the under 23 categories.

Masters

4.1.009 All riders aged 30 or over who hold a masters licence are allowed to ride mountain bike events on the UCI international masters calendar, apart from:

- 1 riders who, during the current year, have ridden a mountain bike event on the international calendar or regional games or Commonwealth Games other than a

masters event with the exception of the world mountain bike marathon championships;

- 2 riders who during the current year have been a member of a team registered with the UCI.

4.1.010 In cross-country marathon events, the UCI MTB Marathon Series or Enduro events, master riders may ride with a temporary or day licence issued by the competent national federation.

The licence sets out clearly the start and end dates of the period for which it is valid. The national federation ensures that a holder of a temporary or day licence benefits for the duration of that licence from the same insurance coverage and other advantages as those granted with an annual licence.

To compete at the masters world championships, master riders must hold an annual masters licence.

(text modified on 1.10.13)

§ 3 Calendar

4.1.011 International mountain bike races are registered on the international calendar in accordance with the following classification:

- Olympic Games (OG)
- *world championships (CM)*
No other international mountain bike event of the same speciality may be organised during the world championships.
- world cup (WC)
No Hors Class or Class 1 event of the same speciality may be organised on the same continent on the same day as a world cup event.
The continental championships (CC) in a speciality may not be organised during a world cup event in the same speciality.
- masters world championships (CMM)
- continental championships (CC)
No Hors Class or Class 1 event of the same speciality may be organised on the same continent during the continental championships.
- stage races
Hors Class (SHC)
Class 1 (S1)
Class 2 (S2)
No stage race may be organised during the Olympic Games, world championships, world cup events or continental championships (on the concerned continent).
- one-day races
Hors Class (HC)
Class 1 (C1)
Class 2 (C2)
Class 3 (C3)
- UCI MTB Marathon Series races

The events status for stage races and one-day races are allocated to each event annually by the UCI management committee on the basis of the commissaires race report from the preceding year. A new event may only be given Class 2 or 3 status in its first year. A detailed technical guide for HC events, stage races and new events, as well as UCI MTB Marathon Series races, must be presented to UCI during the calendar

registration process. A template for such technical guide is provided by UCI upon request.

All events registered on the international calendar must respect the UCI financial obligations (in particular calendar fee, prize money) approved by the UCI management committee and published on the UCI website.

Race entry fees for events on the international calendar are waived for any rider belonging to a UCI ELITE MTB team. This applies only to the discipline in which the team has ELITE status and does not apply to stage races.

(text modified on 1.02.12; 1.10.13; 4.04.14).

§ 4 Technical delegate

- 4.1.012** For the Olympic Games, world championships, world cup events and continental championships a technical delegate is appointed by the UCI.
- 4.1.013** Without prejudice to the responsibility of the organiser, the technical delegate supervises the preparation of the technical aspects of the event and serves as a link with UCI headquarters in this respect.
- 4.1.014** If an event is promoted at a new venue, the technical delegate must carry out an inspection in advance (course, distance, location of feed/technical assistance zones, installations, safety, event race schedule, etc.). He meets the organiser and prepares an inspection report without delay for submission to the UCI mountain bike coordinator.
- 4.1.015** The technical delegate must be on site at least one day prior to the first official training session and must carry out an inspection of the venue and course in conjunction with the organiser and the president of the commissaires' panel. He coordinates the technical preparations for the event and ensures that the recommendations made in the inspection report are implemented. The definitive version of the course and any changes are the responsibility of the technical delegate. In cases where a technical delegate does not have to be appointed under article 4.1.012, this task falls to the president of the commissaires' panel.
- 4.1.016** The technical delegate must attend the team managers' meetings.

§ 5 Marshals

- 4.1.017** All organisers must employ a marshal coordinator, who must speak one of the two official languages of the UCI. The president of the commissaires' panel and, where applicable, the UCI technical delegate meet the marshal coordinator before the event in order to optimise the procedure for giving instructions to the marshals (emergency plans, equipment, whistles, flags, radios, etc.)

The race organiser must provide enough marshals to ensure the safety of the riders and spectators during competition and official training sessions.

All organisers must establish a detailed marshal map for their event. For events where a technical delegate is appointed by UCI, article 4.1.012, a marshal map must be submitted to UCI for approbation prior to the event. For events where no technical delegate is appointed a marshal map must be submitted for prior approbation to the appointed UCI president of the commissaires' panel.

- 4.1.018** The minimum age for marshals is the age of legal majority of the country where the competition takes place.
- 4.1.019** The marshals must be readily identifiable by a badge or distinctive uniform.
- 4.1.020** Marshals must all be equipped with a whistle and those located at strategic points (to be defined by the organiser) must be equipped with a radio. They must be positioned so as to provide a radio link covering the whole course.
- 4.1.021** Marshals must be properly briefed on their role and issued with course maps which provide simple reference points for locating accidents.

§ 6 Event procedure

Safety

- 4.1.022** The course must only be ridden by the riders during the events and official training periods. During official training periods marshal and medical covering will be present. All other persons must be kept clear of the course.
(text modified on 1.02.12).

Cancellation

- 4.1.023** In the event of bad weather the president of the commissaires' panel may decide to cancel the event after consulting the organiser and, where appointed, the UCI technical delegate.

Before the start

- 4.1.024** The course of each event must be clearly defined before the start, and displayed at registration. Access to the course is under UCI control from the time that the UCI technical delegate or, where applicable, the president of the commissaires' panel appointed for the event arrives (course inspection).

Before they arrive, access to the course must be subject to the laws in force and local rules governing the event venue. The organiser may not refuse access to the course for any other reason.

- 4.1.025** Before the official training periods start, the UCI technical delegate must check that the course is properly and safely marked. A report of this check is made to the president of the commissaires' panel and the organiser. In the absence of the UCI technical delegate the course check and report is made by the president of the commissaires' panel.
- 4.1.026** At the Olympic Games, world championships, world cup events, continental championships, hors class events and all stage races team managers or their representative must attend the team managers meeting(s). The meeting(s) must be indicated on the official program of the event.
- 4.1.027** The checking and control of licences and the signing on take place in an office at the event. Official training is only permitted after licences have been checked, other registration formalities completed and handlebar numbers distributed.
- 4.1.028** The definitive list of starters must be drawn up before the start of the race. As well as the riders' names, it must also accurately list their UCI team, UCI code, category, the race type and the start time.

4.1.029 The organiser of the event must provide at least six (6) radio sets to the commissaires' panel, one (1) for the UCI technical delegate if applicable and one (1) for the UCI secretary, to allow the commissaires to communicate properly. These radio sets must have one channel reserved for the sole use of the commissaires' panel and another with which it is possible for the commissaires to contact the director of the organisation. For 4X events the organiser must provide headsets for the radios.

The start

4.1.030 For Olympic Games, world championships, world cup, continental championship events and hors class events the organiser must make provision for a call-up area which is sufficiently large for riders to warm up in, close to the start zone. Other organisers are also encouraged to install a call-up area.

4.1.031 In mass start events, riders must be called to the start no earlier than 20 minutes before the scheduled start of the race. This period can be reduced where the number of riders allows. Five minutes before the call-up an announcement must be made over the public address system to inform riders of the fact, and again three minutes beforehand.

The riders line up in the order in which they are to be called to the start line. The number of riders on each line is decided by the president of the commissaires' panel and supervised by a commissaire. The rider himself decides which position on the line to take.

Once the riders are lined up, warm-up (by rollers, turbo trainer, etc.) is excluded inside or outside the start area.

The start is given by the start commissaire using the following procedure: warnings 3, 2, 1 minutes and 30 seconds before the start, then a final announcement that the start is given within the next 15 seconds.

A starting pistol or, if none is available, a whistle, is used to give the start.

4.1.032 The start commissaire is in sole control of the public address system from three minutes before the start, until the start has been given.

4.1.033 The start briefing is given in at least one of the official languages of the UCI.

Conduct of riders

4.1.034 A rider must act in a sporting manner at all times and must permit any faster rider to overtake without obstructing.

4.1.035 If a rider exits the course for any reason, he/she must return to the course at the same point from which he/she exited. If the president of the commissaires' panel deems that the rider gained advantage, the rider is disqualified (DSQ).

4.1.036 The riders must respect nature and must make sure that they do not pollute the course venue.

4.1.037 Anyone who is found to have altered the course has his/her accreditation removed or, in case of a rider, is disqualified (DSQ).

§ 7 Equipment

- 4.1.038** The use of radio links or other remote means of communication with riders is forbidden.
- 4.1.039** The use of tyres fitted with metal spikes or screws is not permitted.
- 4.1.039** During MTB races no traditional road handlebars may be used.
bis The handlebars extensions of a triathlon or time trial type are forbidden, but traditional barends are authorized.
(article introduced on 1.02.12).

§ 8 Installations

- 4.1.040** Inflatable arches crossing the course are prohibited.
- 4.1.041** The organiser must provide a bike washing area.

§ 9 Course

- 4.1.042** As far as possible, the course for cross-country, four cross and downhill events must be totally separate from that of all other events organised on the same site. If this is not the case, the training and race timetable must be drawn up so that the courses cannot be used simultaneously.
- 4.1.043** There must not be any obstacles which might cause a crash or a collision in the start and finish zones.

II Chapter CROSS-COUNTRY EVENTS

§ 1 Race characteristics

Cross-country Olympic – XCO

- 4.2.001** The duration and lap length of cross-country Olympic format races in the different race classifications in the table below must lie within the following ranges or as close as possible to the race length (in hours and minutes).

	World Championships, World Cup, Continental Championships, Hors Class Class 1 events.		Class 2 events		Class 3 events

The UCI will appoint yearly a certain number of UCI Junior Series XCO events.
(text modified on 1.10.13; 4.04.14)

- 4.2.002** The course for an Olympic format cross-country event should use an attractive lay-out ideally in a cloverleaf design, to encourage easy viewing for spectators and any television coverage.

Double feed/technical assistance zones are strongly recommended.

The course must be marked every kilometer by a sign indicating the distance remaining to the finish line.
(text modified on 1.10.13)

- 4.2.003** Riders must start in a single group.

Cross-country Marathon – XCM

- 4.2.004** The cross-country Marathon format races must respect the minimum distance of 60km and maximum 160km.

All XCM events will be considered as Class 3 events.

Any organiser wishing to use distances outside those stated must obtain preliminary permission from UCI.

The course must be marked every ten kilometers by a sign indicating the distance remaining to be raced.

The race can be run over a single lap, or multi-lap with a maximum number of laps of three (3).

In the event of a single lap the course may not include any section to be covered twice. Only the start and finish lines may be located at the same place.

In the event of a multi-lap race, short-cuts on the lap for the women's race are not allowed.

(text modified on 1.02.12; 1.10.13; 4.04.14).

- 4.2.005** Riders must start in a single group.
(text modified on 1.02.12; 4.04.14).

Cross-country point-to-point - XCP

- 4.2.006** The course for a cross-country point to point event must start in one place and finish elsewhere.

One day registered XCP events will be registered as Class 3 events on the international calendar.

XCP races are being considered as XCO races, as such the XCO national champions must wear their XCO national champions jersey and the XCO world champions their XCO world champions jersey.

(text modified on 1.02.12; 1.10.13).

- 4.2.007** Riders must start in a single group.

Cross-country short circuit – XCC (Short Track)

- 4.2.008** The start and finish must be in the same area. The distance of the course must not be more than 2 km with a race duration of 30 to 60 minutes. XCC events will be registered as Class 3 events on the international calendar.

(text modified on 1.02.12; 1.07.12; 1.10.13).

- 4.2.009** Natural and/or artificial obstacles are only permitted if their use has been preliminary approved by the UCI technical delegate or in his absence, the president of the commissaires' panel.

Cross-country Eliminator – XCE

Course

- 4.2.010** The course for a cross-country eliminator race must be between 500m and 1000m and include natural and/or artificial obstacles, in conformity with article 4.2.009. The whole course must be 100% rideable, single track sections normally are avoided and where possible the course normally has not more than one 180° turn. The start and finish area must be separated in order to allow short race program.

Obstacles such as trees, stairs (up/down), drops, bridges or wooden constructions can create a dynamic short race.

The course must be marked according to articles 4.2.020 to 4.2.029.

Apart from XCE world championships and XCE events at a world cup all other XCE events will be **considered** as Class 3 events.

(text modified on 1.10.13; 4.04.14)

Organisation of competition

Qualifying Round

- 4.2.011** At least 12 riders must be entered for the qualifying round, otherwise no XCE event may be held.

The complete program, qualifying round and main event shall be organized on the same day. Upon reasoned request, the UCI may allow the race program to be split over 2 different days (one day for the qualifying round and one day for the main event).

The qualifying round takes the form of an individual timed run of one lap of the course. The best 32 riders (8x4) or 36 riders (6x6) go through to the main event (see Annexes 5-6).

In case of a tie between riders during the qualifying round, their order is determined by the last UCI XCO individual ranking. If the riders are not ranked in the UCI XCO individual ranking, lots are drawn to determine their order.

Race numbers for the qualifying round are in sequence starting from 33 or 37 on the basis of the most recent UCI XCO individual ranking and in the following order:

- 1 Classified elite and under 23 riders with ascending rank
- 2 Classified juniors with ascending rank
- 3 Unclassified elite and under 23 riders random
- 4 Unclassified juniors random

The riders start in sequence by their race number, the lowest number starting first. The women ride before the men.
(text modified on 1.02.12; 1.07.12)

Main event

4.2.012 The race numbers for the main event are allocated on the basis of the results of the qualifying round, starting with the number 1 for the winner of the qualifying round.

The main event comprises elimination heats in which the groups of riders are matched as shown in the tables in Annexes 5 and 6 - XCE Competition Formats.

Heat order:

- men first until women come to equal heat system;
- finals: women small final followed by women big final;
- men small final followed by men big final.

Intentional contact by pushing, pulling or other means which causes another competitor to slow down, fall or exit the course is not allowed and results in disqualification (DSQ) of the originator.

At the sole discretion of the commissaires' panel, a rider can be announced relegated (REL) and will be given a heat position different to that of his actual finish.

Riders who are DNF, DSQ or DNS in the semi finals may not enter the small final.

The final classification of the competition is drawn up in groups in the following order:

- 1 All riders competing in the big final, except for riders DSQ.
- 2 All riders competing in the small final, except for riders DSQ.
- 3 Riders DNF or DNS in the semi finals.
- 4 The classification of the other riders is determined by the round reached, then by the classification in their heat, then by their race number.

Within each of the above mentioned groups, riders DNF are classified before DNS. In case of multiple DNF or DNS, the tiebreaker is the race number.

Riders DNF or DNS in the first round of the main event are listed without classification.

Riders DSQ in the main event are listed without classification.

Riders not qualified for the main event are not listed in the final classification.

Comments: In case of DSQ, the next riders will move up in the final classification. For example in case of a DSQ in the big final, the winner of the small final will be classified fourth in the final classification.

(text modified on 1.02.12)

Specific Rules

- 4.2.013** A start grid must be drawn on the ground. The riders must be lined up next to each other on one line. The riders in each heat may choose their starting position in order of their race number. The rider with the lowest race number gets first choice.

The XCE national champions must wear their XCE national jersey, and the XCE world champions their XCE world champions jersey.

(text modified on 1.02.12; 1.07.12; 1.10.13).

Cross-country time trial - XCT

- 4.2.014** XCT events are only used during stage races (XCS).

(text modified on 1.10.13; 4.04.14)

Cross-country team relay - XCR

- 4.2.015** Cross-country team relays must be organised at the world championships and may be organised at continental championships as described in articles 9.2.032 and 9.2.033.

Only during world championships and continental championships UCI points are allocated. A minimum of 5 nations must compete in the XCR for UCI points to be awarded. The UCI points are allocated to the nation and not to the riders individually.

(text modified on 1.10.13)

§ 2 Course

- 4.2.016** The course for a cross-country race normally includes a variety of terrain such as road sections, forest tracks, fields, and earth or gravel paths, and include significant amounts of climbing and descending. Paved or tarred/asphalt roads can not exceed 15% of the total course.

- 4.2.017** The course must be wholly rideable even in difficult weather conditions. Parallel sections must be provided on sections of the course likely to deteriorate easily.

- 4.2.018** Extended single track sections must have periodic passing sections.

- 4.2.019** On the course for a cross-country event at world championships, continental championships, world cup and hors class events, provision must be made for at least 6 crossing points for spectators. The crossings must be marshalled on each side.

§ 3 Course marking

- 4.2.020** The complete course must be marked and indicated according to the following system:

- 4.2.021** Direction arrows (black arrows on white or yellow panels) indicate the route to be followed showing changes of course, intersections, and all potentially dangerous

situations. The minimum dimensions of direction arrows must be 40 cm by 20 cm and they must not be sited more than 1.5m above ground level.

4.2.022 The arrows must be on the right-hand side of the course except for right turns in which case arrows before and at the turn must be on the left-hand side of the course.

4.2.023 An arrow is located 10 m before each junction, at the junction and 10 m after the junction to confirm that the correct route has been followed.

A clearly visible "X" sign is used to mark wrong directions.

4.2.024 In a potentially dangerous situation, one or more arrows pointing downwards are placed 10 m to 20 m before the obstacle or potential danger, and also where the obstacle or potential danger is.

Two arrows pointing downwards are used for a more dangerous situation.

A serious hazard requiring great caution must be marked with three arrows pointing downwards

4.2.025 Copies of the following signs must be used:

4.2.026 The sections of a cross-country course that involve steep or potentially dangerous slopes must be marked and protected using non-metallic, preferably PVC, stakes (slalom stakes), 1.5 to 2 meters high.

In very fast sections of the course where the technical delegate or, in his absence, the president of the commissaires' panel deems it appropriate, small banners as per the diagram below can be used to mark off the course. The tape must be positioned on the ski gates/piping at a height which does not interfere with television shots (usually at 50 cm from the ground). "Zone A" sections must be at least 2 m wide.

- 4.2.027** Where course sections involve obstacles such as walls, tree stumps or tree trunks, hay bales or suitable padding must be used to protect the riders. Such protective measures must not restrict the rideability of the course.

In appropriate areas, such as along the edge of steep drops, catch nets which comply with safety standards must be used. Nets or mesh fencing with openings greater than 5 cm x 5 cm may not be used.

Any wooden bridges or ramps must be covered with non-slip surface (carpet, chicken wire or special anti-slip paint).

- 4.2.028** For Olympic format races at the Olympic Games, world championships, continental championships, world cup and hors class events, the course must be marked out (using stakes or banners) and protected for its entire length.

For all marathon format races, the course must be marked out well enough to ensure that it can be followed without problems.
(text modified on 1.10.13)

- 4.2.029** Wherever possible, roots, tree stumps, protruding rocks, etc. are covered in biodegradable fluorescent paint.

§ 4 Start and finish zones

- 4.2.030** The start and/or finish banners must be placed immediately above the start and finish lines at least 2.5 metres above ground level and cover the whole width of the riding surface.

- 4.2.031** The start zone for a cross-country event (massed start events) must:

- a) for world championships and world cup events:
 - be at least 8 metres wide for at least 50 metres before the start line;
 - be at least 8 metres wide for at least 100 metres after the start line;
- b) for all other events:
 - be at least 6 metres wide for at least 50 metres before the start line;
 - be at least 6 metres wide for at least 100 metres after the start line;

For all events the start must be on a flat or uphill section of the course.

The first narrowing after the start must allow riders to pass through together easily.
(text modified on 1.10.13)

- 4.2.032** The finish zone for a cross-country event (massed start event) must:
- be at least 4 metres wide for at least 50 metres before the finish line; for world championships and world cup events this zone is at least 8 metres wide for at least 80 metres.
 - be at least 4 metres wide for at least 20 metres after the finish line; for world championships and world cup events this zone is at least 8 metres wide for at least 50 metres.
 - be on a flat or uphill section of the course.
- 4.2.033** Barriers must be in place on both sides of the course for a minimum of 100 metres before and 50 metres after the start and finish line(s).
- 4.2.034** The final kilometre of the race must be clearly and precisely indicated.

§ 5 Feed/Technical Assistance zone

DIAGRAM 1 : FEED/TECHNICAL ASSISTANCE ZONE ONE SIDE

DIAGRAM 2 : FEED/TECHNICAL ASSISTANCE ZONE OPPOSITE SIDES

DIAGRAM 3 : DOUBLE FEED/TECHNICAL ASSISTANCE ZONE

4.2.035 Feeding is permitted only in the zones designated for that purpose, which are also used as technical assistance zones. The zone is called Feed/Technical Assistance zone.

4.2.036 Each feed/technical assistance zone must be located on flat or uphill sections which are slow and wide enough for the purpose. The zones must be long enough and reasonably evenly spaced around the course. Double feed/technical assistance zones are strongly recommended.

For Olympic format cross-country events (XCO) 1 double zone or 2 single zones are set up. For marathon format cross-country events (XCM) at least 3 feed/technical assistance zones are set up. Organisers must anticipate on the team staff access possibilities during cross-country marathon events.

4.2.037 The UCI technical delegate or, in his absence, the president of the commissaires' panel, in collaboration with the organising director, decides on the distribution and location of feed/technical assistance zones.

4.2.038 The feed/technical assistance zones must be wide and long enough to allow the passing of riders not stopping in the zone.

For world cup events they must furthermore include the following four areas:

- one part for UCI ELITE MTB teams;
- one part for UCI MTB teams;
- one area for national teams;
- another area for individual riders or members of teams not registered with the UCI (who are treated as individual riders).

Staff working for riders must wear readily identifiable team clothing.

4.2.039 The feed/technical assistance zones must be clearly identified and numbered. They must be in an enclosure completely separated from spectators. Access must be strictly controlled by commissaires and/or marshals.

4.2.040 For the Olympic Games, world championships, world cup events and continental championships nobody may enter a feed/technical assistance zone without accreditation.

For the Olympic Games, world championships and continental championships, accreditations are issued by the commissaires' panel at the end of the team managers' meeting.

For world cup events season long accreditations are issued to the UCI ELITE MTB teams and UCI MTB teams. For the national federations or individual riders passes are prepared by the organiser and handed out at registration: they obtain 1 accreditation per registered rider per zone. Note that for a double feed/technical assistance zone they only obtain 1 accreditation per registered rider.

4.2.041 Physical contact between feeders/mechanics and riders is permitted only in feed/technical assistance zones.

Water bottles and food must be passed up to the rider by hand by the feeder or the mechanic. The feeder or mechanic is not permitted to run alongside his rider.

4.2.042 The spraying of water on riders or bicycles by the feeders or mechanics is forbidden.

- 4.2.043** Eyewear may only be changed in the feed/technical assistance zones. An area where glasses may be exchanged may be set up at the end of the zone.
- 4.2.044** No rider may turn back on the course to reach a feed/technical assistance zone. Any rider doing so is disqualified. Only within the feed/technical assistance zone itself, a rider may turn back without obstructing other competitors.
(text modified on 1.02.12).

§ 6 Technical assistance

- 4.2.045** Technical assistance during a race is permitted subject to the conditions below.
- 4.2.046** Authorised technical assistance during a race consists of repairs to or the replacement of any part of the bicycle other than the frame. Bike changes are not permitted and the rider must cross the finish line with the same handlebar number plate that he had at the start.
- 4.2.047** Technical assistance can only be given in the feed/technical assistance zones.
- 4.2.048** Spare equipment and tools for repairs must be kept in these zones. Repairs and equipment changes can be carried out by the rider himself or with the help of a team-mate, team mechanic or neutral technical assistance. Small items such as an inner tube or a small tool may be handed up from the feed/technical assistance zones.
- 4.2.049** In addition to technical assistance in feed zones, technical assistance is permitted outside these zones only between riders who are members of the same UCI ELITE MTB team, UCI MTB team or of the same national team.

Riders may carry tools and spare parts provided that these do not involve any danger to the rider himself or the other competitors.

§ 7 Safety

Marshals

- 4.2.050** Wherever possible each marshal is located in direct line of sight of the next. They signal the arrival of riders with a short, loud blast on a whistle.
- 4.2.051** All marshals working on potentially hazardous sections of the course must carry a yellow flag which is waved in the event of a crash in order to warn other riders.

First aid (minimum requirements)

- 4.2.052** At least one ambulance and one basic first aid post are required at all races.

For each event, at least one (1) doctor and at least six (6) people qualified to perform first aid under the laws of the country must be present at the venue.

- 4.2.053** The first aid post must be centrally located and readily identifiable by all participants.
- 4.2.054** The first aid posts and the members of the first aid service must be in radio communication with each other, the organisers, the marshal coordinator and the president of the commissaires' panel.

4.2.055 All first aid personnel must be easily identifiable with an appropriate mark or uniform. This must be unique.

4.2.056 First aid personnel must be placed in key locations on the courses that are in use for each day of competition.

There must also be a first aid crew in place for official training days.

4.2.057 The organiser must take the measures required to facilitate the rapid evacuation of injured persons from any point of the course. All-terrain vehicles (motorcycles, quads, etc.) and experienced drivers must be available to reach difficult areas quickly.

Potential hazard areas must be clearly identified and must be accessible by ambulance (four wheel drive if necessary).

4.2.058 A briefing with the organising director, the persons in charge of the first aid and marshalling services and the president of the commissaires' panel must be held before the event.

The organiser must issue maps of the course to the staff of the first aid service.

4.2.059 The organiser must provide for cross-country marathon events a motorcycle to mark the front of the race ("lead bike"), and a motorcycle to mark the rear of the race ("sweep bike"). For Olympic format events, only a lead bike must be provided and display on its front the number of laps remaining in the race.
(text modified on 1.10.13)

§ 8 Event procedure

Training

4.2.060 The organiser must make the courses available and fully marked for training at least 24 hours before the start of the first race. For world cup XCO events the deadline is at least 48 hours before the start of the first race.

Riders must display their handlebar numbers during training sessions.

Starting grid

4.2.061 The start order is determined as follows:

A. XCO events (other than world championships and world cup events)

- 1 As per the last published UCI XCO individual ranking;
- 2 Unclassified riders: by drawing lots.

B. XCM events

- 1 As per the last published UCI MTB Marathon Series ranking;
- 2 As per the last published UCI XCO individual ranking;
- 3 Unclassified riders: by drawing lots.

(text modified on 1.02.12).

Classification

4.2.062 Riders who abandon the race are marked on the result sheet as "DNF" (did not finish) and are not awarded any points for this event.

- 4.2.063** Lapped riders must complete the lap during which they were lapped and leave the event via an exit located before the finishing straight or in the "80%" zone as described in article 4.2.064, if that rule applies. They are listed in the results in the order in which they are pulled out of the race showing the number of laps down.
(text modified on 1.02.12).
- 4.2.064** The decision as to whether the 80% rule is to be applied for Olympic cross-country events (XCO) is made by the president of the commissaires' panel after discussion with the organiser. Any rider whose time being 80% slower of that of the race leader's first lap is pulled out of the race. He is required to leave the race at the end of his lap in the zone provided for the purpose (the "80% zone") except when the rider is on his final lap. For Olympic cross-country events at continental championships, world cups, world championships and the Olympic Games, the 80% rule must be applied.
- 4.2.065** Riders pulled out of the race under article 4.2.064 are listed in the results in the order in which they are pulled out of the race showing the number of laps down.
(text modified on 1.02.12).

§ 9 Stage races

General rules

- 4.2.066** A stage race is a series of cross-country races in which teams, national federation riders and individual riders may take part. Riders must complete each stage according to the specific procedures for the event in order to be eligible for the next stage.
- 4.2.067** Organisers must provide the detailed technical guide of their event to the UCI for approval during the international calendar registration process. In the absence of such approval the event will not be included in the international calendar.
A template for such technical guide is provided by UCI upon request.
(text modified on 1.10.13)
- 4.2.068** A stage race may take place on the territory of several countries provided that the national federations of the countries concerned have approved the organisation and the course. Evidence of such approval must be submitted with the application to have the race included on the calendar.
- 4.2.069** Teams are composed of at least two and a maximum of 6 riders.
- 4.2.070** Stages races are assimilated to XCO, therefore XCO World Champions, and the XCO National Champions must wear their champion jersey. XCM World Champions and National XCM Champions can not wear their champion jersey on the occasion of stage races.
(text modified on 1.02.12).

Duration and stages

- 4.2.071** Stage races are run over at least three days, with a maximum of nine days.
Only one stage per day may be run.
- 4.2.072** The different types of cross-country events mentioned in articles 4.2.001 to 4.2.009 and 4.2.014, except cross-country eliminator (XCE) can be chosen for the stages.
- 4.2.073** For each race type (XCO, XCM, XCP, XCC, XCT, Team time trial), distances are as per the technical guide.

Regarding team time trial, the team time is that of the second rider and counts towards the team general classification.

When a stage finishes on a circuit, times are taken on completion of the laps on the finish line.

(text modified on 4.04.14)

Classifications

4.2.074 The individual men's and women's general classification on time are obligatory. UCI points are awarded for the general classification only. *

* For stage races which are competed with teams of 2 riders, example Cape Epic, the UCI points are allocated to both riders (not distributed between riders).

The individual general classification is based on an individual competitor's cumulative time for each stage.

Where two or more riders make the same time in the general individual time classification, the fractions of a second registered during individual time trials (including the prologue) are added back into the total time to decide the order.

If the result is still tied or if there are no individual time trial stages the classifications obtained in each stage are added and, as a last resort, the place obtained in the last stage ridden is taken into consideration.

(text modified on 4.04.14)

4.2.075 Other general classifications for men and women, such as points general classification, mountains general classification, and the men's and women's team general classifications are optional.

In stage races where there is a team general classification, there are only three types of teams that may compete for the classification:

- UCI ELITE MTB teams
- UCI MTB teams
- national teams.

Except in the case of team time trials, both the men's and women's team general classification is established by adding the times of the two best riders in each stage.

4.2.076 Bonuses and time penalties are taken into account. Bonuses are shown only in individual general classifications by time. No bonuses are awarded for individual or team time trial events.

Technical arrangements

4.2.077 A stage event may not include more than one vehicle transfer per three days of event. The duration of each of vehicle transfer may not exceed three hours. A transfer less than one hour is not taken into account.

4.2.078 Neutralised linking sections may be included in no more than 75% of the stages. No linking section may exceed 35 km in length. A lead vehicle must control the speed of the field until the start line is reached. The start must take place from a stationary position at the start line. The start must be given either within 30 minutes following the arrival of the lead vehicle.

4.2.079 There must be two motorcycles (a lead bike and a 'sweep' bike) for all stages except the individual time trial.

4.2.080 The organiser must provide clothing for the leader of the individual men's and women's general classification.

III Chapter DOWNHILL EVENTS

§ 1 Organisation of competition

- 4.3.001** A single run format must be used. This may involve either:
- a qualifying run, called the qualifying round following which a predetermined number of riders set by the particular race regulations are admitted to the final. The fastest rider of the final is declared the winner (the system used for the world cup).
 - a seeding run that determines the start order for a single run in which the rider with the fastest time wins.

Mass start events are composed of a :

- qualifying round (time trial where a number of riders qualify for the final, number of riders to qualify must be set by the organiser in his technical guide), this qualifying round will also serve to determine the start order.
- marathon downhill (mass start downhill)

Each organiser must precise the detailed info on his event in the technical guide of the event.

(text modified on 1.07.12; 1.10.13; 4.04.14)

- 4.3.002** A two run system (with the fastest single time from either run counting to the result) may be acceptable under exceptional circumstances subject to prior authorisation from the UCI mountain bike commission.
- 4.3.003** A system based on two runs using the average or combined times of both is not permitted.
- 4.3.003 bis** Any rider whose time being 100% slower of that of the first established time is listed in the results as DNF (did not finish) and is not awarded any points. This rule is applied for qualifying round and finals.
Under exceptional circumstances, the maximum allowed time limit for finishing may be altered during the race. This decision is made by the president of the commissaires' panel after consultation with the technical delegate.
(article introduced on 1.02.12).

§ 2 Course

- 4.3.004** The course for a downhill must follow a descending route.
- 4.3.005** The course comprises varied terrain sections: narrow and broad tracks, woodland roads and paths, field paths and rocky tracks. There normally are a mixture of fast and technical sections. The emphasis of the course is to test the riders' technical skills and their physical ability.
- 4.3.006** The length of the course and the duration of the event are determined as follows:

	Minimum	Maximum
Course length	1500 m	3500 m
Duration of the event	2 minutes	5 minutes

- 4.3.007** The entire downhill course must be marked and protected using non-metallic, preferably PVC, stakes (slalom stakes) 1.5 to 2 meters high.

In very fast and dangerous sections, where the riders line is close to the course boundary, B lines must be installed as per diagram:

- 4.3.008** The use of straw bales to mark off the course is not permitted.
- 4.3.009** The start area must be at least 1 meter and no more than 2 meters wide. A suitable handrail must be installed, the floor must be covered with a non-slip surface and the start area must be covered.
- 4.3.010** The finish area must be at least 6 meters wide. There must be a braking area of minimum 35-50 m after the finish line with adequate protection and completely cordoned off from the public. The riders exit must be designed in that way that the speed is kept to a minimum.

This area must be free of obstacles.

§ 3 Clothing and protective accessories

- 4.3.011** All lycra-elastane based tight-fitting clothing is not permitted.
- 4.3.012** A full-face helmet must be worn properly both when racing and when training on the course. The helmet must be fitted with a visor. Open-face helmets may not be worn.
- 4.3.013** The UCI strongly recommends that riders wear the following protection:
- back, elbow, knee and shoulder protectors made of rigid materials;
 - protection for the nape of the neck and the cervical vertebrae;
 - padding on shins and thighs;
 - broad full-length trousers made from rip-resistant material incorporating protection for the knees and calves, or broad-cut shorts made from rip-resistant material plus knee and calf protectors with a rigid surface;
 - long sleeved shirt;
 - full finger gloves.

National federations may impose in their national regulations and under their responsibility the use of other protections than helmets including for international events on their territory. The national federations are responsible for monitoring compliance with such regulations to the exclusion of UCI.

A rider not wearing the protection imposed by the national federation in an international event shall be banned from the race by the commissaires' panel only at the request of a representative of the national federation and under the responsibility of the latter.

Comment:

The riders shall inquire about any applicable national federation regulation. The use of protective gear other than helmets may also be imposed by national legislation. The rider shall inquire about this. Compliance with such legislation is the exclusive responsibility of the rider.

A wide variety of equipment is available on the market that is presented and sold as protective gear.

Some of these are provided by reputable manufacturers that may be expected to produce quality products.

Yet, and except for helmets, there seem to exist no official technical norms for protective gear as referred to in the above article.

Therefore it is not known at this time to what extent items that are sold as protective gear provide effective protection, as the concept, the quality, etc. have not been tested and compared with an applicable official technical standard.

It is not known either whether gear that provides protection in a certain type of crash might provide or fail to provide the expected protection in another type of crash.

Likewise the combination of different types of protections may not be adequate. For example a neck protection may not fit with a back protector.

Therefore riders must pay attention to the quality and characteristics of the gear, seek advice of experienced riders, coaches or technicians, procure the gear from professional and reliable suppliers and rely on their own judgment.

The rider shall be responsible for the choice of the gear and for its use, in accordance with articles 1.3.001 to 1.3.003.

(text modified on 1.07.12)

- 4.3.014** Cameras are not permitted during qualifying rounds and finals. The riders are responsible for securing the fixation of the cameras in order to avoid any danger. The UCI can decide to allow a camera during finals but only for the usage of the TV production company.

Comment:

1 see also, in particular, articles 1.3.001-1.3.003 and 1.3.031

2 cameras may be used during training sessions (article 4.3.021) under the conditions laid down in this article.

(text modified on 1.02.12; 1.07.12; 1.10.13)

§ 4 Marshals

- 4.3.015** Each marshal must be located in direct line of sight of the next. They signal the arrival of riders with a short, loud blast on a whistle.

- 4.3.016** The marshals must be provided with flags so that the safety system below can be used.
- 4.3.017** During official training every marshal must carry a yellow flag which must be waved in the event of a crash to warn other riders who must slow down.
- 4.3.018** Some marshals specifically appointed by the organiser and the marshal coordinator must carry a red flag and have a radio link on the same frequency as those of the president of the commissaires' panel, the organising director, the medical team, the marshal coordinator and, where present, the UCI technical delegate. They must be stationed at strategic points on the course such that they are in direct line of sight with their two closest colleagues earlier and later on the course.

The red flags are used in training and racing.

Red flag marshals who see a serious accident must immediately notify the marshal coordinator by radio, who must as soon as possible notify the president of the commissaires' panel, the organising director, the medical team and, where present, the UCI technical delegate.

Red flag holders must immediately assess the situation of the crashed rider and continue reporting by radio to the marshal coordinator.

Red flag marshals who are not directly affected by an accident must follow the relevant radio transmissions. If they note that one of their colleagues further down the course is waving their red flag, they must immediately do the same.

- 4.3.019** Riders observing a waving red flag during the race must stop immediately.

A stopped rider must continue calmly to the finish and request a re-start from the finish line commissaire and wait for further instruction.

§ 5 First aid (minimum requirements)

- 4.3.020** The first aid service must be organised in accordance with articles 4.2.052 to 4.2.058 it being understood that the number of people qualified under the laws of the country to give first aid must be at least seven.
A medic must be stationed at the exit of the finish bowl during racing.
The organiser must submit an evacuation and medical plan to UCI prior to world championships, world cup and continental championships. The organisers medical coordinator must meet the technical delegate if applicable or the president of the commissaires' panel before the first training.
(text modified on 1.02.12).

§ 6 Training

- 4.3.021** The following training sessions must be organised:
- an on-foot inspection of the course must be organised before the first training session.
 - a training session, the day before competition.
 - a training session on the morning of the race day.

No training is permitted whilst a race is in progress.

- 4.3.022** Each rider must complete at least two training runs on pain of disqualification. The start commissaire must ensure that this rule is applied.
- 4.3.023** Riders must start all training runs at the official start gate. Any rider starting a training run below the start line must be disqualified from the competition.
- 4.3.024** Riders must display their handlebar number while training as well as their back number during the qualifying round and the final.

§ 7 Transport

- 4.3.025** The organiser must provide transport capable of carrying 100 riders and their bikes per hour to the top of the course.

IV
Chapter FOUR CROSS EVENTS

§ 1 Nature

4.4.001 Four cross is an elimination event where three or four riders (called a heat) compete side by side on the same downhill course. The nature of this competition is such that there may be some unintentional contact between the riders. This is tolerated if the president of the commissaires' panel considers that it remains within the spirit of the event, fair play and a sporting attitude to other competitors.

§ 2 Organisation of competition

4.4.002 Practice runs must take place on the same day as the finals.

4.4.003 A qualifying round is organised, preferably the same day as the main event.

4.4.004 The qualifying round takes the form of a timed run over the course by each rider. In the event of a tie between riders during the qualifying round, their order is determined by the most recent UCI 4X individual ranking. If the riders are not ranked, lots are drawn to determine their order.

Riders who are DNF, DSQ or DNS in the qualifying round can not enter the main event.

The riders start on the start commissaire's orders, in the sequence determined by the start list. The women ride before the men.

The race numbers used for the qualifying round are in sequence starting from 33 or 65 on the basis of the most recent UCI 4X individual ranking.

4.4.005 The number of riders qualifying for the first round of the main event is determined by the number of heats of three or four that can be made up.

A maximum of 16 heats is possible (maximum 64 riders).

If fewer than 64 riders ride the qualifying round, the number of heats can be 16, 8, 4 or 2, respecting the minimum of three riders per heat.

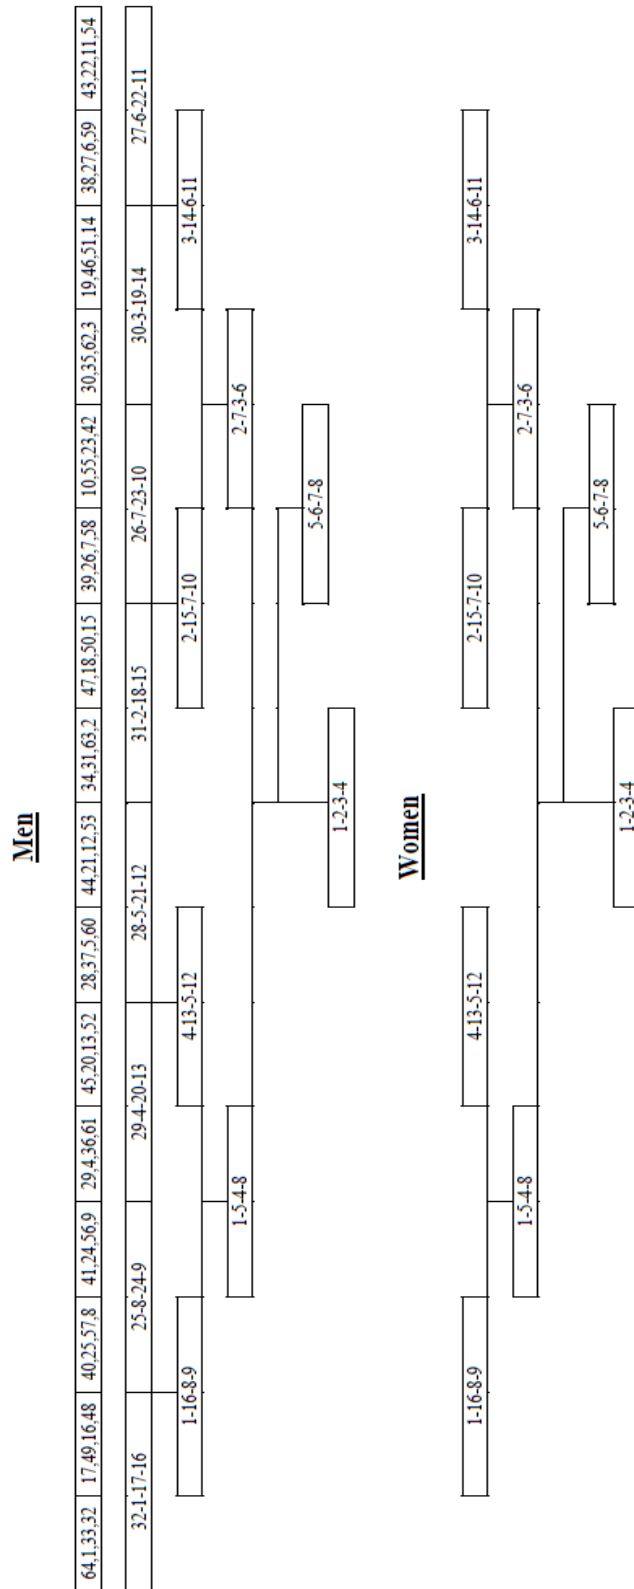

Heat order (men first until women come to equal heat system, finals: women small final followed by women big final, then men small final followed by men big final).

Number of classified riders in the qualifying round	Ladder
48+	64 riders
24-47	32 riders
12-23	16 riders
6-11	8 riders

The number of riders in the qualifying round may not be fewer than six, otherwise no 4X event may be held.

The race numbers for the main event are allocated on the basis of the results of the qualifying round; starting with number 1 for the rider with the best time during the qualifying round and so on.

4.4.006 The main event comprises elimination heats in which the groups of riders are matched as shown in the table below, in order to ensure that the first and second in the qualifying round can only meet in the final.

- 4.4.007** The riders in each heat ride only once per round. The third and the fourth rider in each heat are eliminated. The first and the second qualify for the next round.
- 4.4.008** In addition to the final, a small final round is held for the riders ranked third and fourth in the semi-finals. Riders who are DNF, DSQ or DNS in the semi-finals may not enter the small final.
- 4.4.009** The final classification of the competition is drawn up in groups in the following order:
- 1 All riders competing in the big final, except for riders DSQ.
 - 2 All riders competing in the small final, except for riders DSQ.
 - 3 Riders DNF or DNS in the semi finals.
 - 4 The classification of the other riders is determined by the round reached, then by the classification in their heat, then by their race number.

Within each of the above mentioned groups, riders DNF are classified before DNS. In case of multiple DNF or DNS, the tiebreaker is the race number.

Riders DNF or DNS in the first round of the main event are listed without classification.

Riders DSQ in the main event are listed without classification.

Riders not qualified for the main event are not listed in the final classification.

When for any reason the 4X main event (elimination heats) needs to be cancelled the results of the qualifying round stands as final result.

Comment: In case of DSQ, the next riders will move up in the final classification. For example in case of a DSQ in the big final, the winner of the small final will be classified fourth in the final classification.

- 4.4.010** The riders in each heat may choose their starting position in order of their race number. The rider with the lowest race number gets first choice.
- 4.4.011** The riders take the start from a stationary position.
- If a part of the front wheel passes the start line before the starting signal the rider is relegated (classified in a heat different from the actual finish).
- 4.4.012** The riders are required to pass through each gate without straddling it, i.e. both wheels of the bicycle must trace a path inside each gate. This is determined by judges located along the course or in the TV compound if applicable. A missed or straddled gate in the main event results in relegation unless the rider goes to the trouble of returning to pass it correctly.
- 4.4.013** If all the riders in heat fall or fail to cross the finish line in a preliminary round, the winner is the rider who covered the greatest distance.

§ 3 Course

- 4.4.014** Ideally, the course is set up on moderate slopes with regular gradients. It must also include a mixture of jumps, humps, banked turns, berms, dips, natural tables and other special features. It may also include unbanked turns. There is normally no climbing requiring the riders to pedal.

The course must also be wide enough to allow four riders to line up side by side, and to enable overtaking.

The course must be fully marked out in accordance with the diagram in article 4.2.026 (Zone A and Zone B). Zone A must be at least 2 meters from the course and is at least 2 meters wide.

- 4.4.015** The duration of the race must be between 30 seconds and 60 seconds with an optimum time between 45 and 60 seconds for the winner of the qualifying round.
- 4.4.016** For the first 5 meters of the course, four lanes of an equal width must be marked by white lines (using tape, biodegradable paint or flour). Any rider crossing or riding on these white lines is relegated. In case a rider is crossing or riding on these white lines when he is placed behind his neighbour riders and does not hinder them and has no advantage the relegation can be transformed in a warning.
- 4.4.017** The start straight must be at least 30 metres long. Obstacles in the first 30 meters must be the same across the entire width of the course.
- 4.4.018** The gates on the course must be made of non-metallic stakes (slalom stakes), preferably in PVC, 1.5 to 2 metres high.
- The gates must be set up with the lower part inwards and the higher part outwards.
- 4.4.019** The last gate on the course must be located at least 10 meters from the finish line.
- 4.4.020** The organiser must provide a raised platform from which the 4X judge has an unobstructed view of the entire course. The platform must be located in a zone to which spectators do not have access.

§ 4 Transport

§ 1 Race characteristics

4.4a.001 The race includes several liaison stages and timed stages.

The times achieved in all timed stage will be accumulated to a total time.

An enduro course comprises varied off-road terrain. The track should include a mixture of narrow and wide, slow and fast paths and tracks over a mixture of off-road surfaces. Each timed stage must be predominately descending but small pedaling or uphill sections are acceptable.

Liaison stages can include either mechanical uplift (e.g. chairlift), pedal powered climbs or a mixture of both. The emphasis of the track must be on rider enjoyment, technical and physical ability.

Any other system may be acceptable only under exceptional circumstances and subject to prior authorisation from the UCI.

§ 2 Technical assistance

4.4a.002 A maximum of one technical assistance zone can be provided by the organizer. Outside technical assistance is only allowed in this area.

4.4a.003 Only one frame, one front and rear suspension unit (fork/rear shock) and one pair of wheels can be used by a competitor during a competition. Broken parts can eventually be replaced upon approval with a 5 min penalty.

§ 3 Equipment

4.4a.004 Riders must wear a helmet at all times during competition. In very technical terrain or on courses that feature steep mountainsides or very high-speed trails, the organiser can specify in his particular rules that competitors must wear a full-face helmet.

The UCI strongly recommends that riders wear the protections as indicated in art. 4.3.013

§ 4 Course map

§ 5 Course marking

4.4a.006 Enduro courses must be clearly marked using a combination of arrows, gates and traditional course tape.

4.4a.007 Extra care must be taken by the organiser to make sure that the course is clearly marked and no shortcuts are possible.

4.4a.008 In sections of the course that are marked by course tape, both sides of the track must be marked.

4.4a.009 Easily recognisable gates should be installed in hard to interpret or hard to define sections of the course. The gates should be installed in key areas of the course and should be listed as checkpoints..

§ 6 Organisation of competition

- 4.4a.010** The organizer must provide the start times for each timed stage
- 4.4a.011** Each rider takes an individual start, the start interval between the riders must be of 20 seconds at least.
- 4.4a.012** A minimum of 3 timed stages must be raced.
The total time for each rider shall correspond to a minimum of 10 minutes
- 4.4a.013** A minimum of 2 different courses for the timed stages must be used. Under unforeseen and exceptional circumstances (e.g. weather), the UCI commissaire may, after consulting the organizer, cancel a stage or remove it from the general classification.

- 4.4a.018** The president of the commissaries' panel can consider a rule violation that has not been witnessed by a race official if it has been reported by at least two riders who are part of two different teams (e.g. rider getting assistance outside technical assistance zone, rider cutting course) .

§ 9 Flying Marshals

- 4.4a.019** A small number of special trained marshals, Flying Marshals, or commissaires should move around the course during competition to undisclosed points. Motorbikes, ATV or MTB can be used.

Registration

4.5.004 All riders must be registered using the UCI on-line registration system (www.uci.ch). UCI ELITE MTB teams or UCI MTB teams register their riders, national federations register the other riders who qualify under article 4.5.003.

The on-line registration system opens twenty days before an event and closes on the Monday preceding the event at 12.00 am CET. A table showing these dates is published on the UCI web site.

Press conference

- 4.5.007** At the request of the organiser, the three highest placed riders in the event and the leader in the world cup standings must attend the press conference.

World cup standings

- 4.5.008** The world cup standings are drawn up on the basis of the points won by each rider in accordance with the table in article 4.5.037.

Riders tying on points are ranked by the greatest number of 1st places, 2nd places, etc. taking account only of places for which points are awarded for the world cup. If they are still tied, the points scored in the most recent event are used to separate them.

In the event of a tie on points in the downhill after the qualifying round and the final, the riders' positions are determined by the result of the final.
(text modified on 1.07.12; 1.11.13; 4.04.14)

- 4.5.009** A UCI MTB team classification for the event is drawn up by summing up the 3 highest scored points of each team in accordance with the "team classification" table in article 4.5.037.

For the cross-country Olympic, a separate team classification for men elite and women elite is drawn up.

For downhill, a mixed team classification is drawn up by summing the 3 highest scored points of each team without making a distinction between men and women. Only the results of the Elite finals are taken into account.

In the event of a tie on points in the UCI MTB team classification for the event, the placing of the best placed rider in the team is used to determine the team classification. Should there still be a tie in downhill, the placing of the best placed male rider determines the order.

After each round of the world cup, the UCI MTB team standings is drawn up by adding the points won in the UCI MTB team classification for each event. Ties are broken by the largest number of 1st places, 2nd places, etc. Should there still be a tie, the order is determined by the event classification for the most recent world cup.

The riders of the teams leading the UCI MTB Team world cup standings are given yellow handlebar number plates which must be used during the world cup.
(text modified on 1.02.12; 1.07.12).

Leader's jersey

- 4.5.010** The rider leading a world cup standings must wear the leader's jersey in every world cup event concerned, except in the opening event.

VI Chapter UCI MTB MARATHON SERIES

§ 1 General

4.6.001 The UCI MTB Marathon Series is the exclusive property of the UCI.

4.6.002 Each year the management committee of the UCI designates the events for which a UCI MTB Marathon Series takes place.

Participation

4.6.003 UCI MTB Marathon Series events are open to riders corresponding to the following conditions:

- having an annual licence issued by a national federation and present this licence at registration;
- riders don't need a certain number of UCI points to participate;
- unlimited participation for national federations or teams as the riders can participate in their UCI MTB team or club jersey

Age category

4.6.004 The age category for the UCI MTB Marathon Series is 19 years and above and includes masters categories.

No separate results for under 23 and masters categories must be made.

Registration

4.6.005 The registration procedure is handled by each organiser of a UCI MTB Marathon Series event. The registration deadline is on the Thursday preceding the event at 12.00 am CET.

Riders need to complete their registration individually for the UCI MTB Marathon Series. Late entries are accepted on a payment of a fine of CHF 100. The deadline for late entries is by noon on the eve of the race.

(text modified on 1.02.12).

UCI MTB Marathon Series ranking

4.6.006 The individual general UCI MTB Marathon Series ranking is drawn up on the basis of the points won by each rider.

Top 40 men and women score points:

1st 100, 2nd 85, 3rd 70, 4th 60, 5th 50, 6th 45, 7th 40, 8th 36, 9th 34, 10th 32, 11th-40th 30-1.

A rider's six best results count for the individual general marathon series ranking. As a 7th event the results of the world championships will be included.

As in UCI MTB Marathon Series events, the top 40 riders (men and women) score points, however the points schedule will be doubled for both categories (200 points for the winner, 2nd 170, etc.).

The general ranking period starts the day after the UCI mountain bike marathon world championships until the following year UCI mountain bike marathon world championships. **Any changes to the UCI MTB Marathon Series rules will only come into effect for the new UCI MTB Marathon Series starting after the next world championships, and not on January 1st.**

Riders tying on points are ranked by the greatest number of 1st places, 2nd places, etc. taking account only of places for which points are awarded for the UCI MTB Marathon Series. If they are still tied, the points scored in the most recent event are used to separate them.

The UCI MTB Marathon Series ranking publication dates will be published on the UCI website.

(text modified on 1.02.12; 1.11.13; 4.04.14).

(article introduced on 1.02.12).

§ 2 Special rules for UCI MTB Marathon Series

4.6.008 Top 20 men and women of each round of the UCI MTB marathon Series as well as the top 50 of the individual general UCI MTB Marathon Series ranking obtain a qualification for the UCI marathon world championships.

Race characteristics

4.6.009 The distances of the UCI MTB Marathon Series are minimum 60 km to maximum 160 km for women and men.

The race can be run over a single lap, or multi-lap with a maximum number laps of three.

In the event of a multi-lap race there may not be a short-cut on the lap for the women's race.

(text modified on 1.10.13)

4.6.010 The riders start order is determined as follows:

- as per the most recently published UCI MTB Marathon Series ranking;
- subsequently, as per the last UCI XCO individual ranking;
- by drawing lots for the other riders.

(text modified on 1.02.12; 1.10.13).

VII Chapter UCI MOUNTAIN BIKE RANKING

4.7.001 The UCI has created the UCI mountain bike ranking. The UCI is its exclusive owner.

The UCI mountain bike ranking is drawn up over a period of one year, in accordance with the conditions set out below, by adding the points won since the preceding ranking was drawn up, and respecting the provisions of article. 4.7.008. At the same time the remaining points obtained up to the same day of the previous year by each rider in international mountain bike races are deducted. The new ranking comes into force on the day of publication and stands until the publication of the subsequent ranking.

The UCI mountain bike ranking for juniors XCO is drawn up annually by summing the points won by each rider in the period from 1 January to 31 December. For juniors only UCI points are allocated for world championships, world cup events, continental championships, eliminator races, **Juniors Series Races** and **XCO** national championships.

The XCO Juniors ranking publication dates will be published on the UCI website.
(text modified on 1.11.13; 4.04.14)

4.7.002 An individual ranking for men and one for women is drawn up for each of the following types of event:

- UCI XCO individual ranking (elite and under 23 combined)
- UCI XCO juniors individual ranking
- UCI DHI individual ranking
- UCI 4X individual ranking

(text modified on 1.02.12).

4.7.003 If an under 23 rider rides a cross-country Olympic event for elite riders when a separate event is being organised for under 23 riders, as per Art. 4.1.004, he is awarded only the points as per the scale applicable to the elite event. UCI points for under 23 riders are only awarded where there is a separate event from that for elite riders.

If a junior rider rides an eliminator (XCE) event he scores his UCI points into the UCI XCO juniors individual ranking.

(text modified on 1.02.12; 1.10.13; 4.04.14).

4.7.004 Riders who are tied in the individual ranking have their positions decided by their ranking in the most recent event of the season, in the following order:

- 1 world championships
- 2 world cup events
- 3 hors class events
- 4 events in class 1
- 5 events in class 2
- 6 events in class 3

4.7.005 A ranking by nation for men and women is drawn up for cross-country Olympic only. The ranking by nation is calculated by summing the points of three best placed riders from each nation.

The UCI points awarded for the team relay event at the world championships and continental championships are awarded to the nation in the elite ranking and not to the individual riders.

A rider's points are awarded to the nation of his nationality, even if he is a licence-holder of the federation of another country.

Tied nations have their relative positions determined by the place of their best rider on the Individual ranking.
(text modified on 1.10.13)

4.7.006 A UCI XCO team ranking is calculated by adding the points of the 3 best placed men and the 3 best placed women of each UCI MTB team in the UCI XCO individual ranking.

A UCI gravity team ranking is calculated by adding the points of the 2 best placed DHI men, the best placed DHI woman, of each UCI MTB team in the concerned UCI individual ranking.

Tied teams have their relative positions determined by the place of their best rider on the individual ranking.
(text modified on 1.07.12)

4.7.007 The number of points to be awarded is shown in the Annexes 2-4.

For the cross-country Olympic (XCO) ranking only the types of events that meet the criteria set out in articles 4.2.001, 4.2.002, 4.2.008, 4.2.010, 4.2.011 to 4.2.013 and the general ranking of stage races are eligible. No UCI points are awarded for the individual stages of stage races.

The downhill ranking is based purely on individual downhill events. No points are awarded for massed-start downhill and enduro events.

The 4X ranking is calculated from 4X events.
(text modified on 1.02.12; 1.10.13)

4.7.008 For events in the categories below, only the best results of each rider are taken into account:

- Class 1 one-day events: the best 5 results
- Class 2 one-day events: the best 5 results
- Class 3 one-day events: the best 5 results
- Class 1 stage races: the best 3 results
- Class 2 stage races: the best 2 results

(text modified on 1.10.13)

4.7.009 The UCI mountain bike ranking is updated after Olympic Games, world championships, world cup events, continental championships and on 31 December.
The dates of other ranking updates are published on the UCI website.
(text modified on 1.02.12).

4.7.010 As set out in article 1.2.029, national mountain bike championships shall be run on the 29th weekend of the year (mandatory date). The UCI may grant dispensations for the southern hemisphere or in cases of force majeure.
Concerning the calculation of the UCI rankings, national championships run before or after the mandatory date shall be considered as being run on the mandatory date.
(article introduced on 1.02.12).

- The rider wishes to join the..... (name of the team);
- Both parties are acquainted with and declare that they abide wholly by the UCI Constitution and Regulations, and those of its affiliated national federation.

It is agreed as follows:

Participation by the rider in events in other disciplines is decided by the parties case by case.

ARTICLE 2 - Duration

The present contract is concluded for a fixed period commencing on.... and expiring on....

ARTICLE 3 - Remuneration / reimbursement of expenses

a) Paid rider

The rider is entitled to an annual gross salary of.... This remuneration may not be lower than the legal minimum wage or, where there is no legal minimum, than the usual salary that is paid or has to be paid to full-time workers employed in the country whose national federation issued the rider's licence or in the country where the team has its head office, whichever is the higher.

If the duration of that contract is to be less than one year, the rider must, over that period, earn at least the full annual salary provided for in the preceding paragraph, less the salary that he earned as a rider with some other employer in the course of the same year.

This provision does not apply if the present contract is extended.

b) Unpaid rider

The rider receives no wages or remuneration but receives expenses as per the scale below for the activities carried out for the team and/or at its request:

(Suggestions, examples ➔)

- (currency and amount) per kilometre travelled;
- reimbursement of air tickets for distances greater than (number) km;

- reimbursement of the cost of a 2-star hotel room for the nights before and after the event if the competition venue is more than (number) km from the rider's home;

ARTICLE 4 - Payment of salary / reimbursement of expenses

a) Paid rider

1. The paying agent must pay the salary referred to in article 3 above in at least four instalments, no later than the last working day of each three-month period.
2. Should the rider be suspended under the terms of the UCI Regulations or those of one of its affiliated federations, he is not entitled to the said remuneration referred to in article 3 for the part of the suspension exceeding one month.
3. In the event of failure to make payment of the remuneration referred to in article 3, the rider is, without summoning the employer to make payment, fully entitled to an extra benefit of 5% interest per year.

b) Unpaid rider

1. The team must pay the sums specified in article 3 no later than the last working day of each month as long as it has received the expenses claim from the rider before the 20th of that month.
2. In the event of a failure to make payment of any sum by its due date, the rider has the right, without notice, to the interest and supplements commonly applied in that country.

Any sum due to the rider from the team must be paid by transfer to the rider's bank account no (number) at the (name of the bank) at (branch where the account is held). Only the proof of the execution of the bank transfer is accepted as proof of payment.

ARTICLE 5 - Insurance

In the event of illness or accident affecting the rider's ability to meet his contractual obligations, the rider benefits from the insurance cover specified in the annexes to this contract.

ARTICLE 6 - Primes and prizes

The rider is entitled to primes and prizes won during cycling competitions in which he/she rode for the team, in accordance with the regulations of the UCI and its affiliated federations.

Primes and prizes must be paid as promptly as possible, but at latest on the last working day of the month following that in which said primes and prizes were won.

ARTICLE 7 - Miscellaneous Obligations

1. The rider may not, for the duration of the present contract, work for any other team or advertise for any other sponsors than those belonging to the (name of team), except in such cases as are provided for in the Regulations of the UCI and of its affiliated Federation.
2. The paying agent undertakes to allow the rider to exercise his activity properly by providing the equipment and clothing required and allowing him to take part in an adequate number of cycling events, either as part of a team or individually.
3. The rider may not compete in a race as an individual without the express consent of the paying agent. The paying agent is deemed to have given its agreement if it has not replied within a period of ten days from the date of the request. In no case may the rider take part in a race within any other structure or a mixed team if the (name of the team) has already entered for that race.

In the event of selection for a national team, the paying agent is required to permit the rider to participate in such races and preparatory programmes as may be determined by the national federation. The paying agent must authorise the national federation, acting on its own behalf, to give to the rider any instructions of a purely sporting nature that it deems necessary in the context of and for the duration of the selection.

In none of the aforementioned cases, the present contract is suspended.

ARTICLE 8 - Transfers

On the expiry of the present contract, the rider is entirely free to sign a new contract with some other employer, subject to the provisions of the UCI Regulations.

ARTICLE 9 - End of contract

Without prejudice to the legislation governing the present contract, it may be terminated before expiry, in the following cases and on the following conditions:

1. The rider may terminate the present contract, without notice or liability for damages:
 - (a) if the paying agent is declared bankrupt, insolvent or goes into liquidation.
 - (b) if the paying agent or a principal partner withdraws from the team and the continuity of the team is not guaranteed or else if the Team announces its dissolution, the winding up of its activities or its inability to meet its commitments; if the announcement is made for a given date, the Rider must perform the contract until that date.
2. The paying agent may terminate the present contract, without notice or liability for damages, in the event of serious misconduct on the part of the rider or of the suspension of the rider under the terms of the UCI Regulations for the remaining duration of the present contract.

Serious misconduct is considered to include refusal to ride cycle races, despite being repeatedly called on to do so by the paying agent.
3. Either party is entitled to terminate the present contract, without notice or liability, notably in case the rider is rendered permanently unable to exercise the occupation of professional cyclist.

ARTICLE 10 - Defeasance

Any clause agreed upon between the parties that runs counter to the terms of the model contract between a rider and a team and/or to the provisions of the UCI Constitution or Regulations and which would in any way restrict the rights of the Rider is null and void.

ARTICLE 11 - Arbitration

Any dispute between the parties arising from the present Contract must be submitted to arbitration and must not be brought before any court. It must be settled in accordance with the Regulations of the UCI through the UCI arbitral board or, failing this, according to the regulations of the national federation to which the rider belongs or, failing this, the legislation governing this Contract.
